ABOUT US

Welcome to Kaizen where you'll find a breadth of ITAD, data, and professional services tailored to your business needs.

By continuously analysing and improving the way our organisation operates we keep our professional approach streamlined, efficient, and flexible. Allowing our team to work with you in developing the ideal solution to your request

OUR SOLUTIONS

ITAD & Redeployment Services

Kaizen specialise in the process of streamlining the disposition of IT assets. By following the company ethos, and ensuring that we are always Innovative Towards Asset Disposition (ITAD), Kaizen can offer bespoke solutions tailored to your business requirements, at any point along the ITAD process.

Data Security Services

Whether it is live information, or information at the end of it's life, Kaizen provide a breadth of services to help you retain data security during your data's lifecycle

IT Recycling

When an item of IT has no economical or re-use value and has to be recycled, Kaizen provide a fully approved and accredited IT recycling solution to ensure your adherence to the WEEE Directive, GDPR and Waste Management Hierarchy

IT Product Sales

Kaizen provide multiple sales channels of IT equipment depending on your needs. From bulk, wholesale IT purchases to bespoke, configured office installations, contact Kaizen to see how we can help you.

HOW WE CAN HELP YOU

We run the company with it's name at the centre of our ethos, analysing and continuously improving all aspects of the organisation, innovating where possible, all aiming to produce products and services that meet or exceed customer requirements and enhance customer satisfaction

- **Asset recovery** - maximising the financial return on your redundant and surplus IT equipment
- **Secure Data Destruction** - ensuring your GDPR compliance
- **Redeployment** - improve your existing IT estate with upgraded software and / or components
- **Office Productivity and Security** - consult, migrate and support you with Microsoft and Cyber Security Software
- **IT Procurement** - we sell refurbished and new IT equipment from individual items to complete office refits or bulk purchases

Continuous Improvement Cycle - 'Kaizen'

HOW WE DIFFER

Unlike most ITADs we believe in our ability to maximise the residual value of your IT estate. As such, we will put a value against your items that require refurbishment, including parts, not just those items that are complete, working and with little wear and tear.

We believe in full transparency and disclosure throughout the entire process with expansive status reporting along with the final results. We also put data security at the heart of our operation. All data held is securely destroyed with full certification provided.
